

COVID Precautions and Camp Atta Girl!

Some have inquired about what we are doing regarding the COVID-19 virus. We will be following the recommendations from the CDC.

- We will be doing as much social distancing as we can given the nature of the event.
- We will not require face masks but encourage women to wear them if they feel more comfortable.
- Each attendee will sign a waiver that they have not been exposed to COVID-19. We will be taking everyone's temperature and if they have a fever, cannot attend.
- We will be providing sanitizer.

We require vaccinations and all team members of Camp Atta Girl! are vaccinated. Please bring your vaccination cards. We know that vaccinations do not keep you from getting COVID-19 and even those vaccinated can carry COVID-19, catch the virus, and transmit it. But vaccinations are effective per the CDC:

- COVID-19 vaccines are safe and effective at preventing COVID-19, including severe illness and death.
- COVID-19 vaccines are effective against severe disease and death from variants of the virus that causes COVID-19 currently circulating in the United States, including the Omicron and Delta variants.
- Infections happen in only a small proportion of people who are fully vaccinated, even with the Delta or Omicron variant. When these infections occur among vaccinated people, they tend to be mild.
- If you are fully vaccinated, you can spread the virus to others.
- People with weakened immune systems, including people who take immunosuppressive medications, may not be protected even if fully vaccinated.

All attendees, are taking responsibility for attending. Every woman attending will be required to sign a waiver that she attests to the following or she cannot attend Camp Atta Girl!:

- *I am not experiencing any symptoms of illness such as cough, shortness of breath or difficulty breathing, fever, chills, repeated shaking with chills, muscle pain, headache, sore throat, or new loss of taste or smell.*
- *I have not traveled internationally within the last 14 days.*
- *I have not traveled to a highly impacted area within the United States of America in the last 14 days.*
- *I do not believe I have been exposed to someone with a suspected and/or confirmed case of the Coronavirus/COVID-19.*
- *I have not been diagnosed with Coronavirus/Covid-19.*
- *I am following all CDC recommended guidelines as much as possible and limiting my exposure to the Coronavirus/COVID-19.*
- *If I have been vaccinated, I know that despite being vaccinated, there is always a risk that I could be exposed and can spread the virus to others.*

We hope you will respect that we want to provide a safe experience for everyone who attends. We hope this will answer any questions you may have regarding COVID-19. If you have any others, please reach out to us at info@campattagirl.com. We want this to be a safe and fun experience and will be doing what we can to provide this.
